WORKING PAPER

29 May 1969

MEMORANDUM FOR: Chief, Development & Engineering Division, TSSG

SUBJECT: Recommendations on Selective Target Printing (STP)

REFERENCE:

- a. Memorandum for COMIREX, Selective Target Printing COMIREX-D-34, 3/1, Dated 25 April 1969
- b. Memorandum for Record, Selective Target Printing, NPIC/TSSG/PPS-87-69, Dated 7 May 1969

1. I concur with [] statements in Reference a. I further agree that the Intelligence Community should most definitely be queried on their needs as is apparently being accomplished thru [] COMIREX team (Reference b.). However, I feel that time is against a thorough investigation and that shortly [] is going to tell the exploitation groups what they will supply them rather than the various groups telling [] what they need. [] has been expressing the desire for requirements for over a year and still has yet to receive any and apparently his FY 70 budget is the fulcrum about which the decision for STP or roll distribution pivots.

2. I feel that TSSG, and especially DED, should definitely have a voice in any Center decision regarding the type of material received [] To accomplish this, [] PPS, has been designated as coordinator for this information from all divisions of TSSG.
